Ford Motor Company - convinced Henry Ford II to produce a sporty four-seat car aimed at the emerging youth market. That car, essentially a reconfigured and re-skinned Falcon economy car, became the Ford Mustang, and it changed the automotive world like no other car before or since. In *Ford Mustang: America's Original Pony Car*, acclaimed Mustang writer Donald Farr celebrates this unbroken lineage of muscle. He chronicles the car's phenomenal first-year sales, the new pony car category it pioneered, and subsequent models that include the Mustang GT, Shelby GT350, Shelby GT500, Super

Cobra Jet, Boss 302, and Boss 429 - all part of a line of American performance cars that continues to this day. Created in cooperation with Ford Motor Company and featuring some 400 photos from its historic and media archives, *Ford Mustang* is a must on the bookshelf of any muscle car or Ford aficionado.

Jeeps and began exploring the rugged backcountry of the American West. This burgeoning market segment, which eventually became known as sport utility vehicles (SUVs), numbered about 40,000 units per year with offerings from Jeep, Scout, Toyota, and Land Rover. In 1966, Ford entered the fray with its Bronco, offering increased refinement, more power, and an innovative coil-spring front suspension. The Bronco caught on quickly and soon established a reputation as a solid backcountry performer. In Baja, the legendary accomplishments of racers such as Parnelli Jones, Rod Hall, and Bill Stroppe

further cemented the bobtail's reputation for toughness. Ford moved upstream with the introduction of the larger Bronco for 1978, witnessing a huge increase in sales for the second-generation trucks. The Twin Traction Beam front end was introduced in the third generation, and further refinements including more aerodynamic styling, greater luxury, and more powerful fuel-injected engines came on board in the generations that followed. Through it all, the Bronco retained its reputation as a tough, versatile, and comfortable rig, both on and off the paved road. With the reintroduction of the Bronco for

2020, Ford is producing a vehicle for a whole new generation of enthusiasts that looks to bring modern styling and performance to the market while building on the 30-year heritage of the first five generations of the Bronco so dearly loved by their owners. From the development process and details of the first trucks through the 1996 models, author Todd Zuercher shares technical details, rarely seen photos, and highlights of significant models along with the stories of those people whose lives have been intertwined with the Bronco for many years. This book will have new information for everyone

**Craigslist Confessional** Helena Dea Bala 2020-07-07

“Touching.” –The New York Times For fans of Humans of New York and PostSecret, a collection of raw, urgent, and

heartfelt stories, shared anonymously. Helena Dea Bala was an exhausted and isolated DC lobbyist, suffocating under the weight of her student loan debt, when she decided to split her lunch with a man who often panhandled near her office. They chatted effortlessly as they ate; there were no half-truths or white lies, and no fear of judgment. Helena felt connected and unburdened in a way she hadn’t in years.

Inspired, she posted an ad on Craigslist promising to listen, anonymously and for free, to whatever the speaker felt he or she couldn’t tell anyone else. Emails from people desperate to connect flooded her inbox,

and she listened. Within months, Helena quit her job, deferred her loans, and dove into listening full time. The forty first-person confessions in this book are vivid, intimate, and real; they range from devastating traumas, to lost loves, to reflections on hard choices. Some accounts are quotidian, like that of one increasingly estranged husband: “I want to feel that we’re not just roommates—that we’re not just waiting for the kids to grow up so that we can move on.” Others are deeply disconcerting, like that of a sex addict employed by a religious organization and several are heartening, like that of a mother

who dares to hope that her daughter, born with life-threatening heart defects, will one day walk down the aisle: “Sometimes you need to have the audacity to believe that it will all be okay, that it is okay to have the same kinds of dreams as everyone else.” In its complex portrayal of the common human experience, *Craigslist Confessional* challenges us to explore the depths of our vulnerability and expand the borders of our empathy.
