Bob and Tom Get a Dog Cecilia Minden 2021 "Siblings Bob and Tom get a dog with spots. This A-level story uses decodable text to raise confidence in early readers. The book uses a combination of sight words and short-vowel words in repetition to build recognition. Original illustrations help guide readers through the text."--

Programming with C+ B. L. Juneja 2009 About the Book: Authors have taken special care to present the various topics in Programming with C++ in an easy-to-learn style. Almost every topic is followed by well designed live programmes so that it becomes easy to grasp the underlying principle or programming technique. A total of more than 450 live programmes are included in the book. It is also taken care that programmes are short and do not include such details which do not relate to the topic on hand. This makes them easy to be tested and suitable for practice students. Authors are confident that the book will prove its worth for th.

Quattro Jeremy Walton 2020-09-15 The word 'Quattro', chosen by Audi for its pioneering high-performance four-wheel-drive cars, immediately captures glamour and excitement in the minds of all motorsport enthusiasts. This book, written by a leading journalist and Quattro devotee, explores 24 years of factory-prepared and factory-supported Quattros in motorsport, from 1980 to 2004. It is a tale that extends from rough rally stages to race tracks, from pine-fringed ice trails in the depths of European winters to the shimmering heat haze and melting asphalt of

Texas street racing. Along the way, it explains how Quattros collected four world rally championships, five American driver/manufacturer crowns and a single-year haul of seven international touring car titles, plus numerous other honours. With the five-cylinder turbocharged Quattro in its original form, rallying in the early years yielded numerous wins, most of all in 1982, when seven victories in 11 world championship rallies brought the first title. With the short-wheelbase Sport added to Audi's armoury, 1984 became an all-action, all-conquering rallying season with two more world titles won, for drivers (Stig Blomqvist) and manufacturers. Three stunning Pike's Peak wins were achieved in America in successive years, for Michele Mouton (1985), Bobby Unser (1986) and Walter Röhrl (1987). Starting with double championships for the 200 quattro in TransAm (1988) and the 90 Quattro in IMSA (1989), racing success unfolded in America. Exuberant Hans Stuck was the star driver, but consistent team-mate Hurley Haywood captured that 1988 title. Touring car campaigns during the 1990s brought huge success, starting with fearsome V8 Quattro 'racing limos' in Germany. Global achievements followed with A4 Quattros in many national Super Touring series throughout Europe and in Australia, including Frank Biela's 1996 title-winning campaign in Britain. Audi continued to win on track in the new millennium as race versions of the S4 and RS6 captured five SCCA GT Championship titles in America.

Getting Saved in America Carolyn Chen 2014-08-31 What does becoming American have to do with becoming religious? Many immigrants become more religious after coming to the United States. Taiwanese are no different. Like many Asian immigrants to the United States, Taiwanese frequently convert to Christianity after immigrating. But Americanization is more than simply a process of Christianization. Most Taiwanese American Buddhists also say they converted only after arriving in the United States even though Buddhism is a part of Taiwan's dominant religion. By examining the experiences of Christian and Buddhist Taiwanese Americans, Getting Saved in America tells "a story of how people become religious by becoming American, and how people become American by becoming religious." Carolyn Chen argues that many Taiwanese immigrants deal with the challenges of becoming American by becoming religious. Based on in-depth interviews with Taiwanese American Christians and Buddhists, and extensive ethnographic fieldwork at a Taiwanese Buddhist temple and a Taiwanese Christian church in Southern California, Getting Saved in America is the first book to compare how two religions influence the experiences of one immigrant group. By showing how religion transforms many immigrants into Americans, it sheds new light on the question of how immigrants become American.

Motorcycle Track Day Handbook Kent Larson For years track days have been popular activities for European motorcyclists. In recent years it has become a very popular activity in the U.S. as well. As traffic laws become increasingly draconian, roads become increasingly congested, and motorcycles become increasingly capable, more people are taking their bikes to race tracks. Currently there are a number of organizations catering to people who attend track days. But many people who want to ride on racetracks don't attend track days because they don't know how to prepare themselves or their motorcycles for the racetrack. This book will provide tell them everything they need to know to hit the racetrack: how to prepare their motorcycles, how to find organizations that sponsor track days, where to attend track days, specific information for the major racetracks in the United States, information on track schools around the country, and much, much more.About the AuthorKent Larson, an accomplished racer and a control rider for NESBA, one of the country's leading track day organizations, contributed the chapter on track days to our high performance riding book Total Control. Larson lives in Woodbury, Minnesota.

Issei Buddhism in the Americas Duncan Ryūken Williams 2010 Rich in primary sources and featuring contributions from scholars on both sides of the Pacific, Issei Buddhism in the Americas upends boundaries and categories that have tied Buddhism to Asia and illuminates the social and spiritual role that the religion has played in the Americas. While Buddhists in Japan had long described the migration of the religion as traveling from India, across Asia, and ending in Japan, this collection details the movement of Buddhism across the Pacific to the Americas. Leading the way were pioneering, first-generation Issei priests and their followers who established temples, shared Buddhist teachings, and converted non-Buddhists in the late nineteenth and twentieth centuries. The book explores these pioneering efforts in the context of Japanese diasporic communities and immigration history and the early history of Buddhism in the Americas. The result is a dramatic exploration of the history of Asian immigrant religion that encompasses such topics as Japanese language instruction in Hawaiian schools, the Japanese Canadian community in British Columbia, the roles of Buddhist song culture, Tenriyko ministers in America, and Zen Buddhism in Brazil. Contributors are Michihiro Ama, Noriko Asato, Masako Iino, Tomoe Moriya, Lori Pierce, Cristina Rocha, Keiko Wells, Duncan Ryûken Williams, and Akihiro Yamakura.

Alone Cyn Balog 2017-11-07 This must-read for lovers of Stephen King's The Shining will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...
