**We Saw Scenery** Merrill Markoe 2020-10-13 "Merrill Markoe got all the talent. In addition to being an Emmy-award winning comedy writer, she's also a top-notch artist. We Saw Scenery is revealing, sad, funny, and, above all, relatable. Merrill captures the experience of a young woman finding—and holding onto—her own voice. And we're all lucky she did." —Nell Scovell, author of *Just the Funny Parts* In her first-ever graphic memoir, four-time Emmy-winning comedy writer Merrill Markoe unearths her treasured diaries, long kept under lock and key, to illustrate the hilarious story of her preteen and teen years and how she came to realize that her secret power was her humor. Wielding her layered and comically absurd style, Markoe takes readers back through her time as a Girl Scout, where she learned that "scouting" was really more about learning housewifery skills, to her earliest crushes on uniquely awful boys and her growing obsession with television. Much has changed in our world since Markoe wrote in her diaries, or has it? Climate change wasn't yet a rallying call, but the growing hole in the ozone preoccupied Markoe's young mind. No one was flocking to the desert for Burning Man, but Markoe readily partook in the Ken Kesey Acid Test. As she charts the divide between her adolescence and adulthood, Markoe questions and berates her younger self, revealing how much is opaque to us in those young years. Perfect for fans of Roz Chast, Allie Brosh, and Lynda Barry, *We Saw Scenery* is a laugh-out-loud story of a girl growing up, told from the perspective of the woman she became, and it will speak to all who wanted to understand themselves in the midst of their own maturing.

**Saul Bass** Jan-Christopher Horak 2014-11-18 Iconic graphic designer and Academy Award-winning filmmaker Saul Bass (1920–1996) defined an innovative era in cinema. His title sequences for films such as Otto Preminger's *The Man with the Golden Arm* (1955) and *Anatomy of a Murder* (1959), Alfred Hitchcock's *Vertigo* (1958) and *North by Northwest* (1959), and Billy Wilder's *The Seven Year Itch* (1955) introduced the idea that opening credits could tell a story, setting the mood for the movie to follow. Bass's stylistic influence can be seen in popular Hollywood franchises from the *Pink Panther* to *James Bond*, as well as in more contemporary works such as Steven Spielberg's *Catch Me If You Can* (2002) and television's *Mad Men*. The first book to examine the life and work of this fascinating figure, *Saul Bass: Anatomy of Film Design* explores the designer's revolutionary career and his lasting impact on the entertainment and advertising industries. Jan-Christopher Horak traces Bass from his humble beginnings as a self-taught artist to his professional peak, when auteur directors like Stanley Kubrick, Robert Aldrich, and Martin Scorsese sought him as a collaborator. He also discusses how Bass incorporated aesthetic concepts borrowed from modern art in his work, presenting them in a new way that made them easily recognizable to the public. This long-overdue book sheds light on the creative process of the undisputed master of film title design -- a man whose multidimensional talents and unique ability to blend high art and commercial imperatives profoundly influenced generations of filmmakers, designers, and advertisers.

**Lone Rider** Elspeth Beard 2017-07-06 In 1982, at the age of just twenty-three and halfway through her architecture studies, Elspeth Beard left her family and friends in London and set off on a 35,000-mile solo adventure around the world on her 1974 BMW R60/6. Reeling from a recent breakup and with only limited savings from her pub job, a tent, a few clothes and some tools, all packed on the back of her bike, she was determined to prove herself. She had ridden bikes since her teens and was well travelled. But nothing could prepare her for what lay ahead. When she returned to London nearly two and a half years later she was stonier, lighter and decades wiser. She'd ridden through unforgiving

landscapes and countries ravaged by war, witnessed civil uprisings that forced her to fake documents, and fended off sexual attacks, biker gangs and corrupt police convinced she was trafficking drugs. She'd survived life-threatening illnesses, personal loss and brutal accidents that had left permanent scars and a black hole in her memory. And she'd fallen in love with two very different men. In an age before email, the internet, mobile phones, satnavs and, in some parts of the world, readily available and reliable maps, Elspeth achieved something that would still seem remarkable today. Told with honesty and wit, this is the extraordinary and moving story of a unique and life-changing adventure.

**The Structuring of Organizations** Henry Mintzberg 1979 How do organizations structure themselves? This book reveals that structure seems to be at the root of many questions about organizations and why they function as they do.
