Foundation Mathematics for Class 8 R. S. Aggarwal
2019-01-01 The revised edition of the series Foundation Mathematics for Classes 6, 7 and 8 is based on the latest curriculum prepared and recommended by the Council for the Indian School Certificate Examinations, New Delhi. The present mathematics curriculum aims to develop a number of Mathematical Skills (like

Numerical Calculation, Algebraic Manipulation, Spatial Visualisation, Data Analysis, Measurement, Estimation and Approximation) and Mathematical Processes (like Reasoning, Communication and Connections, Problem solving and Heuristics, Estimation, Technology etc.) among students at these levels. This series has been developed and designed keeping in mind the following objectives of the latest curriculum : Students should :

- Enjoy learning of mathematics.
- Learn important mathematics that is much more than few formulas and mechanical procedures of solving problems.
- Pose and solve meaningful problems.
- See mathematics as something to talk about, to communicate, to discuss among themselves, to work together on.
- Understand the basic structure of mathematics : Arithmetic, algebra, geometry and trigonometry, the basic content areas of school mathematics, all offer a methodology of abstraction, structuration and generalization

become confident and successful mathematicians through a fun and engaging scheme. Through an investigatory approach children learn the skills of problem solving in the context of other mathematical strands in the course. The course will encourage learners to be independent thinkers with the confidence to tackle a wide range of problems who understand the value and relevance of their mathematics. Classroom discussion is encouraged to help learners become good mathematical communicators, to justify answers and to make connections between ideas. This series is part of Cambridge Maths (www.cie.org.uk/cambridgeprimarymaths), a project between Cambridge University Press and Cambridge International Examinations and is appropriate for learners sitting the Primary Checkpoint test. *New National Framework Mathematics 8+ Pupil's Book* M. J. Tipler 2003 Teacher Support material supports each

set of books providing comprehensive support, for both the experienced and non-specialist teacher. A range of varied, challenging and tried and tested discussion exercises, puzzles, practicals, investigations and games are included. Pupils are encouraged to learn how topics interrelate with each other through the use of icons in the pupil books and references within the Teacher Support Files. Review and Test Yourself questions are included at the end of every chapter for flexible use.
