for the average guy \* Fix up an old  
outboard and SAVE \$1000 or more  
compared to buying a new motor! With  
a little know-how and a few common  
tools, you can fix an old motor—bring

it back from the dead. Sometimes all  
it takes is a squirt of WD-40 into  
the cylinder and a new spark plug. Or  
a new set of points and  
condensers—which do not require  
expert knowledge or black magic to  
install. Maybe the carburetor needs  
cleaning and adjusting. You can do  
it! Max E. Wawrzyniak III is an  
outboard motor guru. He advises you  
to find an old motor at a yard sale  
for \$100 or so (and he tells you  
exactly which ones to look for), and  
fix it up—rather than spending \$1500  
or more on a new motor. He is a big  
fan of “cheap power.” Get on the  
water with money left in your pocket.  
With a basic understanding of how  
these motors work, a little logical  
thinking, and a few hours’ work, you  
can go boating for a fraction of what  
everyone else has to pay. Also—for
