**The Walkthrough** Doug Walsh 2019-05-16 The Walkthrough offers a rare peek behind the curtain of the secretive video game industry from an unlikely perspective, that of a career strategy guide writer. For eighteen years, Doug Walsh was one of the most prolific authors of officially licensed video game strategy guides. One part memoir and one part industry tell-all, The Walkthrough takes players on an entertaining march through gaming's recent history, from the dawn of the PlayStation to the Xbox 360 and Nintendo Switch. Follow along as Walsh retraces his career and reveals how the books were made, what it was like writing guides to some of the industry's most celebrated — and derided — titles, and why the biggest publishers of guidebooks are no longer around. Walsh devotes entire chapters to many of gaming's most popular franchises, including Tony Hawk's Pro Skater, Gears of War, and Diablo, among others. From inauspicious beginnings with Daikatana to authoring the books for the entire Bioshock trilogy, with plenty of highs, lows, and Warp Pipes along the way, Walsh delivers a rare treat to twenty-first century gamers. The Walkthrough is sure to satisfy the curiosity of anyone who grew up with the works of BradyGames and Prima Games sprawled across their laps. With over one hundred books to his credit, and countless weeks spent at many of the most famous studios in North America, he is uniquely qualified to give an insider's perspective of a little-known niche within the multi-billion-dollar industry.

Isis Unveiled H. P. Blavatsky 2012-09 Isis Unveiled is a classic spiritual book written by Helena Petrovna Blavatsky of The Theosophical Society. This Isis Unveiled contains new calculations of the yugas by Sri Yukteswar author of The Holy Science. The Veil of Isis, Blavatsky's Secret Doctrine on A Mastery Key to the Mysteries of Ancient and Modern Science and Theology is her opus. It encompasses a thorough examination of religion, spirituality, yoga, Sanatana dharma, kabbalism and Christianity. MAKE SURE YOU GET BOTH VOLUMES OF ISIS UNVEILED: Book I ISBN: 1939199042 & Book II ISBN: 1939199077 to help answer the question: "Does God Really Exist"? This is a question that has been asked since the beginning of time and probably will not be answered until the individual comes face to face with the Truth! However, if a critical examination on the subject matter is what you're looking for then there probably is no better source than "Isis Unveiled." This book is an exhaustive effort to discuss man, life and Spirit from as many angles as possible; from all ancient cultures, myths, religions and scientific perspectives. This book goes in depth to explore man's place in the world, how we all relate to one another and what connects us all. For the mystic, that answer is undeniably that we are all part of One Source, One Essence and One Spirit. Supported by extensive evidence from religious, esoteric and mystical traditions and classical scholarship, these volumes aid the student in detecting the vital principles which underlie the philosophical systems of old. Volume I consists of two books focusing on prevailing scientific theories balanced with Ancient Universal Wisdom Religion. Volume II's two books

examine the creeds of religions past and present, alongside the myths and symbols of various cultures. Throughout, the author strikes at the root of dogma and affirms the 'paramount importance of any religion' for the individual to "Know Thyself!" After reading this classic book with a new translation and modernization, you will see how although time, cultures and languages may change - Truth is Eternal! Take this journey through history touching upon the wealth of spiritual knowledge from the Hindus, Chaldeans and Egyptians to Kabbalism, Christianity and Science. Enjoy the travels through the legendary Lemuria and Atlantis to the Mayans with quotes from Plato, the Chaldean Oracles, the Egyptian Book of the Dead, the Bible, Pythagoras, Apollonius of Tyana, the Popol Vuh, Paracelsus, Giordano Bruno, Marco Polo, Jesus the Nazarene, Siddhartha Gautama, Zoroaster, Hermes Trismegistus and Max Muller, as well as Buddhist, Brahmanical, Chinese, Persian, Babylonian, Syrian, Gnostics and so much more. Ultimately, it is the yogi who tells us that to the disbeliever there will never be substantial enough evidence to convince the doubter. However, for those who aren't merely skeptics but have a sincere thirst for Truth, then only by going within will you ever be quenched! Isis Unveiled is the rapid river leading you to the water within... it is up to you to drink! For those that don't know, Blavatsky is very advanced reading for spiritual students. It is NOT the type of book you read from front cover to back. You must take your time with this reading. You should use the table of contents and/or index to go to the subject you have interest in, read it and let it digest. As time goes on and you experience more life then you will find yourself coming back to various subjects and gaining something new with each reading! "Many rivers... One Ocean; many branches... One Tree; many paths... One Destination; many stories... One Truth!" 1 S.O.U.L. Publishing

Better Game Characters by Design Katherine Isbister 2018-04-30 Games are poised for a major evolution, driven by growth in

technical sophistication and audience reach. Characters that create powerful social and emotional connections with players throughout the game-play itself (not just in cut scenes) will be essential to next-generation games. However, the principles of sophisticated character design and interaction are not widely understood within the game development community. Further complicating the situation are powerful gender and cultural issues that can influence perception of characters. Katherine Isbister has spent the last 10 years examining what makes interactions with computer characters useful and engaging to different audiences. This work has revealed that the key to good design is leveraging player psychology: understanding what's memorable, exciting, and useful to a person about real-life social interactions, and applying those insights to character design. Game designers who create great characters often make use of these psychological principles without realizing it. *Better Game Characters by Design* gives game design professionals and other interactive media designers a framework for understanding how social roles and perceptions affect players' reactions to characters, helping produce stronger designs and better results. *Final Fantasy VII: The Kids Are Alright: A Turks Side Story* Kazushige Nojima 2019-01-22 A lot has changed the in two years since the Lifestream erupted, and a new city, Edge, has been born from the wreckage. There, a young man and woman run a private detective agency, but then they run into the infamous Turks of the Shinra Electric Power Company...
