important hot topics as genetics, neurology, inclusion, assistive technology, and information processing. The book provides key, research-based teaching methods and strategies for children with various exceptionalities, and also offers analysis of ecological factors that influence the exceptional child in and out of the classroom. This edition also features a new chapter on children with ADD/ADHD, new diagnosis information from the DSM-5, coverage of CEC and Common Core State Standards, the most current teaching techniques for each category, and current coverage of the Response to Intervention Model. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Innovative Teaching Strategies and Methods Promoting Lifelong Learning in Higher Education Hava E. Vidergor
2017 This book is a comprehensive study of

innovative strategies and methods in higher education, and may serve as a guide for college and university lecturers wishing to expand their teaching repertoire. The book offers theoretical constructs and their practical applications in a wide variety of fields demonstrating the implementation of field-tested methods and techniques. It focuses on teaching-learning strategies in higher education in different applied fields, addressing four main areas, each comprising of several subtopics: 1. The main challenges of academic teaching (ie: transdisciplinary teaching-learning, teaching large classes and alternative/formative assessment); 2. Using technology (ie: incorporating technology, blended learning environments and distance learning); 3. Co-operative teaching-learning strategies (ie: problem based learning, project based learning and personal learning network); and 4. Values-based methods (ie: promoting social

responsibility and future thinking, values and knowledge education, and adapting teaching learning to special needs). Each of the fourteen chapters, which are written at a high academic standard, presents a current theoretical review followed by a description of sample courses and/or activities exemplifying possible applications of the relevant theory. The contributors are European university and college lecturers and researchers, experts in their respective fields, who have participated in two European Union ERASMUS+ projects, share the love of teaching and wish to disseminate these innovating teaching practices among higher education institutions. EC-12 161 Sharon A Wynne
2014-02-28 Aligned with current TExES standards, our study guide provides a comprehensive review of all nine domains. We give you a thorough review of all domains, competencies, skills, and focus statements tested on the TExES Special Education EC-12 (161) exam. Unlike other teacher certification test preparation material, our TExES Special Education EC-12 study guide drills all the way down to the focus statement level, providing detailed examples of the range, type, and level of content that appear on the test. The book includes three full-length multiple-choice practice tests to help you test your

knowledge, understand how the exam is weighted, and identify skills and competencies you need to focus on. Our detailed answer explanations reference related skills in the book, allowing you to identify your strengths and weaknesses and interact with the content effectively.

Maximize your study by prioritizing domains and skills you need to focus on the most to pass the exam.
