Manual de informática forense II Luis Enrique Arellano González 2021-06-03 Hace ocho años, la Informática Forense era solo una asignatura en vías de desarrollo, apenas conocida entre la mayoría de los profesionales de la Criminalística, gestionada por muy pocos y casi aislada de las disciplinas que le dan razón de ser: el Derecho, la Criminalística y la Informática. En la presente publicación, el orden que mostramos no es antojadizo ni aleatorio, sino que indica un camino a seguir por todo aquel que desea desempeñarse como perito en la materia. Hoy el panorama ha cambiado -entre otras razones por la amplia difusión y recepción que tuvo el Manual de Informática Forense, ofrecido a los lectores por esta misma Editorial (2011)- y nuevamente nos encontramos con la Prof. Ing. María Elena Darahuge (práctica-procedimental) y el Prof. Ing.

Luis Enrique Arellano González (desarrollo teórico-conceptual), quienes, con el auspicio de la Facultad Regional Avellaneda (Universidad Tecnológica Nacional), han complementado la obra antedicha, ampliando sus alcances sobre los componentes informáticos móviles (iPod, iPad, tablet, telefonía celular) y especificando temas de permanente actualidad, tales como la "cadena de custodia informático forense", que tanto ha dado que hablar en el entorno jurisprudencial durante el año 2012. Este Manual se integra al anterior a fin de brindar un instrumento organizado conceptual y procedimentalmente a los operadores del Derecho (jueces, funcionarios judiciales, abogados de la matrícula), ingenieros, licenciados y peritos en Informática, Sistemas o Computación, licenciados en Criminalística, profesionales y empresarios que aspiren a una visión clara y sencilla de la Problemática Informático Forense, para resolver situaciones cotidianas y darle soporte a sus decisiones. Esperamos que esta obra les proporcione la utilidad y claridad pretendidas.

The Jesus Lifestyle Nicky Gumbel 2018-05-03 What does living as a Christian really look like? What changes do I need to make to the way I live my life? How does Jesus want me to live? The Sermon on the Mount is Jesus' teaching on how to conduct our lives. While his original audience was a crowd of first-century Jews, his words are astutely relevant to 21st century living, particularly as modern Western cultural trends are increasingly at odds with Jesus' teaching. Laid out to follow the structure of Matthew 5-7, each chapter delves into the topics raised in these verses, including: - Dealing with anger - Handling conflict and criticism - Managing money - Sex, marriage and divorce - The secret of true happiness With his familiar mix of wisdom and humour, Nicky Gumbel explains Jesus' teaching and presents practical ways to apply it so Christians can follow Jesus in every aspect of their lives.

The Zen Canon Dale S. Wright 2004-03-25 Bodhidharma, its first patriarch, reputedly said that Zen Buddhism represents "a special transmission outside the teaching/Without reliance on words and letters." This saying, along with the often perplexing use of language (and silence) by Zen masters, gave rise to the notion that Zen is a "lived religion," based strictly on non-linguistic practice and lacking a substantial canon of sacred texts. Even those who recognize the importance of Zen texts commonly limit their focus to a few select texts without recognizing the wide variety of Zen literature. This collection of previously unpublished essays argues that Zen actually has a rich and varied literary heritage. Among the most significant textual genres are hagiographic accounts and recorded sayings of individual Zen masters, koan collections and commentaries, and rules for monastic life. During times of political turmoil in China and Japan, these texts were crucial to the survival and success of Zen, and they have for centuries been valued by practitioners as vital expressions of the truth of Zen. This volume offers learned yet accessible studies of some of the most important classical Zen texts, including some that have received little scholarly attention (and many of which are accessible only to specialists). Each essay provides historical, literary, and philosophical commentary on a particular text or genre. Together, they offer a critique of the "de facto canon" that has been created by the limited approach of Western scholarship, and demonstrate that literature is a diverse and essential part of Zen Buddhism.

Make Your Bed Admiral William H. McRaven

2017-04-04 Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." --Washington Post "Superb, smart, and succinct." --Forbes
