**Inventing the Fiesta City** Laura Hernández-Ehrisman 2008 Fiesta San Antonio began in 1891 and through the twentieth century expanded from a single parade to over two hundred events spanning a ten-day period. Laura Hernández-Ehrisman examines Fiesta's development as part of San Antonio's culture of power relations between men and women, Anglos and Mexicanos. In some ways Fiesta resembles hundreds of urban celebrations across the country, but San Antonio offers a unique fusion of Southern, Western, and Mexican cultures that articulates a distinct community identity. From its beginning as a celebration of a new social order in San Antonio controlled by a German and Anglo elite to the citywide spectacle of today, Hernández-Ehrisman traces the connections between Fiesta and the construction of the city's tourist industry and social change in San Antonio.

**La Fiesta de Los Tastoanes** Olga Najera-Ramirez 1997 Each year, for three days in September, the citizens of Jocotan, an ancient indigenous community near Guadalajara, Mexico, symbolically reenact the Spanish conquest of Mexico in mock battles between Santiago, the patron saint of Spain, and the Tastoanes, the leaders of the indigenous resistance. Paradoxically, the Jocotenos honor Santiago, their special protector, and incorporate both Christian and indigenous practices and beliefs in their fiesta. Employing the concept of hegemony, the author explores what the festival means culturally to the community and shows how it enables Jocotenos to adapt to Christianity and to resist the social order it symbolizes. Through the festival, Jocotenos address their collective identity, the preservation of their folk culture, and their relationship to the social-political power structure of Jocotan. Students of Mexican culture and of syncretic religions worldwide will find this study stimulating and informative. *Manual de dirección de operaciones. **Madrid, 1931-1934** Santos Julia 1984 A los trabajos que sobre la 1l República española ha publicado Santos Juliá se añade ahora este libro que obtuvo el premio “Ortega y Gasset” Villa de Madrid (1982). En él se intenta reconstruir minuciosamente el proceso y los determinantes que convirtieron la fiesta popular con que Madrid celebró la instauración de la República en el abierto enfrentamiento de clases que caracterizó la vida madrileña durante el invierno de 1933-34. A la par, y por el hecho de reconstruir este proceso en un espacio reducido -una ciudad- aunque sumamente significativo -Madrid-, el autor propone un modelo de interpretación de las luchas de clases urbanas durante la 1l República que, más allá de sus determinantes políticos, tenga en cuenta el propio desarrollo de la ciudad, las transformaciones de su estructura, los procesos migratorios, la crisis que afectó a sus principales industrias, el tipo de sus organizaciones obreras y patronales y, en fin, la dinámica de los discursos y las prácticas de clase. De acuerdo con esos presupuestos metodológicos, el libro concede una atención especial a la fiesta como momento fundante de la República para desembarcar, tras el análisis de la cristalización de conciencias enfrentadas de clase, en el estudio de las diferentes formas de lucha de los dos sindicatos obreros y las distintas agrupaciones patronales. El “pueblo todo entero” que aparece como sujeto del primer capítulo del libro se convertirá, durante este corto y denso proceso, en el “frente obrero” y el “bloque patronal” que aparecen radicalmente enfrentados en su última parte. Santos Juliá es profesor del Departamento de Ciencias Políticas y Sociología de la UNED. Ha publicado, en diversas revistas y obras colectivas, una veintena de artículos sobre temas relacionados con la II República y es autor de La izquierda del, PSOE, 1935-36 y de Orígenes del Frente Popular en España, aparecidos en esta misma editorial.

**The Yugo** Jason Vuic 2011-03-01 Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the

men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got The Yugo: The Rise and Fall of the Worst Car in History. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.

**Ford's Feisty Capri** 2009-10-01 The fabulous success of Ford's Mustang in America inspired Ford's British and German branches to do likewise. The sporty coupe they created, the Ford Capri, was launched in 1969 as the first joint production of the brand-new Ford of Europe. Billed as “The car you always promised yourself”, the Capri was a signal success with almost 1.9 million made when production ended in 1987. Its rakish lines, keen pricing and broad power offerings gave the Capri wide appeal not only in Europe but also in America, which imported the Mark I and II versions from 1970 to 1977 for sale through Lincoln-Mercury dealers. The Mark III for Europe followed in 1978. No paper tigers, these classy coupes were formidable rally and racing cars as this book's illustrations reveal. A Capri insider, former Ford of Europe executive Karl Ludvigsen introduces the Capri saga and illuminates the many rare images from his world-famous Ludvigsen Library. A feast for fans of the Blue Oval, this book's pages bring to life the exciting story of one of the best-loved Fords of all time.

**Tom Tjaarda** Gautam Sen 2021-08 A comprehensive, richly illustrated appraisal of the life of this automotive design giant. Few automotive designers have as impressive a resume as Tom Tjaarda. Among automotive enthusiasts, his name is synonymous with the De Tomaso, Ferrari, Fiat, Ford, Innocenti, and Lancia marques, but he also is responsible for the successful workaday Ford Fiesta. Raised in Detroit when the American Dream was beating out its rock 'n' roll rhythm, Tjaarda moved to Europe, where he had a ringside seat at the heart of automotive styling activities in the Mecca of vehicle design, Turin, in its heyday. The lessons he learned there helped make him one of the most influential and important designers of the second half of the twentieth century. Tom Tjaarda: Master of Proportions is a comprehensive, richly illustrated appraisal of the life of this design giant, featuring all his designs, both automotive and in other fields.

**Auto Repair For Dummies** Deanna Sclar 2019-01-07 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
