A.W.N. Pugin and the Revival of Memorial Brasses David Meara 1991 Examines the important contribution of Augustus Wellby Northmore Pugin (1812-52) in the revival of memorial brasses in English churches, an art that had declined since the middle ages. Puts Pugin's writings and many designs in the context of 19th century religious revival and the rising fortunes of the Catholic Church; and shows how his collaboration with metalworker John Hardman changed the attitudes about memorial brasses and restored a lost standard of craftsmanship. Well illustrated, largely by brass rubbings. Annotation copyrighted by Book News, Inc., Portland, OR

The SAGES Manual of Hernia Surgery S. Scott Davis, Jr. 2018-11-23 This edition of the SAGES Manual of Hernia Surgery aligns with the current version of the new SAGES University MASTERS Program Hernia Surgery pathway. This manual serves as a curriculum for participants in the MASTERS Program as well as a modern text on hernia surgery for all learners. Hernia surgery is one of the fastest developing fields in general surgery today. There have been rapid advancements in hernia techniques in recent years, making most prior texts on the subject obsolete. These advancements involve significant evolution in both the techniques and strategies for hernia repairs, as well as the tools used to achieve these means. This text thoroughly addresses the multiple component separation techniques and options for locations of mesh repairs. It also discusses the revolution of hernia repair being facilitated by robotic surgery, which allows increased access to minimally invasive techniques for surgeons and thus increased access to minimally invasive surgical repairs for patients. This manual will be a valuable resource for interested surgeons to understand the variety of potential approaches to individual hernias, and to individually tailor the care of the hernia patient.
