Maxie Briscoe Melissa Bradley 2010-03 The name's Maxie Briscoe and I am a werewolf...That's right, Maxie's a real life, full-moon-loving, Halloween icon. It's hard for a girl like Maxie. To survive, she hides her true self and acts the part of a normal human, all the while discreetly indulging the Beast within her. Talk about walking a narrow ledge. And that's not even the worst part of her life. Sex is. Maxie can bench press a pick-up truck and that spells disaster in the bedroom. She can't have any real fun knowing she might accidentally crush a lover while in the throes. Kind of kills the mood. When a friend's murder shatters the careful existence Maxie has carved out for herself, she comes face to face with Damien and Noah, two of the hottest men she's ever laid eyes on. And it only stirs her Beast and turns her on more when she realizes they're hot for each other. They're also the first werewolves she's run across since her own conversion. The attraction between the three of them is instant, but complicated, and the sex...explosive. Too bad there's a killer out there with his sights set on her...

The Courage to Love Samantha Kane 2016-10-19 An erotic romance. Kate Collier is still recovering from a vicious rape and trying to make a success of her dress shop when Jason Randall and Anthony Richards return to London from the Continent, intent on winning her. She's known them for years, ever since they served with her late husband in the Peninsula against Napoleon. She'd been in love with them for almost that long. To discover they feel the same is a shock, but Kate isn't ready to turn her life back over to any man. Jason and Tony prove hard to resist, however, especially when their close friendship blossoms into desire for each other as they make Kate's body burn with passion. The combination of their insatiable desire for her and their journey into a sexual relationship with one another is irresistible to Kate. The past haunts them but, despite violence and censure directed at their menage, the three long for a life together and they will not be denied. *Previously published **For mature readers 18+

Longing for Darkness Kamante 1975 In one of the most dazzling--and unlikely--books of recent times, the lost worl of Isak Dinesen (Baroness Karen Blixen) is stirringly re-created by her old major-domo, Kamante, the hero of her classic "Out of Africa". Here Kamante gives his version of "Out of Africa" (related to Peter

Beard and then translated from Swahili and handwritten by Kamante's sons", his inspired rendering of the fables Isak Dinesen taught in Karen Coffee Farm

School, and his lyrical watercolors.

The Sex-Starved Marriage Michele Weiner Davis 2004-01-08 Bring the spark back into your bedroom and your relationship with gutsy and effective advice from bestselling author Michele Weiner Davis. It is estimated that one of every three married couples struggles with problems associated with mismatched sexual desire. Do you? If you want to stop fighting about sex and revitalize your intimate connection with your spouse, then you need this book. In *The Sex-Starved Marriage*, bestselling author Michele Weiner Davis will help you understand why being complacent or bitter about ho-hum sex might cost you your relationship. Full of moving firsthand accounts from couples who have struggled with the erosion of sexual desire and rebuilt their passionate connection, *The Sex-Starved Marriage* addresses every aspect of the sexual libido problem: If you're the more highly sexed partner, you'll breathe a sigh of relief. At last someone understands your feelings about the void in your marriage. Discover why your pleas for touch have fallen upon deaf ears and why your approach to the lull in your sexual relationship could be a sexual turnoff. Most important, learn new ways to motivate your spouse to take your needs for more physical closeness to heart. If you're the spouse with a lagging libido, you're far from alone. You'll learn about the physiological and psychological factors, including unresolved relationship issues, that may contribute to the chill in your bedroom and what you can do to melt the ice. And if you're a man, you'll be surprised to learn that staggering numbers of men, even men whose sexual machinery works just fine, "get headaches" too! *The Sex-Starved Marriage* will give you and your spouse the inspiration, encouragement, and answers you need.

Admiral Nimitz: The Commander of the Pacific Ocean Theater Brayton Harris 2012-01-03 Chester Nimitz was an admiral's Admiral, considered by many to be the greatest naval leader of the last century. After the attack on Pearl Harbor, Nimitz assembled the forces, selected the leaders, and - as commander of all U.S. and Allied air, land, and sea forces in the Pacific Ocean - led the charge one island at a time, one battle at a time, toward victory. A brilliant strategist, he astounded contemporaries by achieving military victories against fantastic odds, outpacing more flamboyant luminaries like General Douglas MacArthur and Admiral "Bull" Halsey. And he was there to accept, on behalf of the United States, the surrender of the Japanese aboard the battleship USS Missouri in August 1945. In this first biography in over three decades, Brayton Harris uses long-overlooked files and recently declassified documents to bring to life one of America's greatest wartime heroes.

Learning Progressions in Science Alicia C. Alonzo 2012-07-30 Learning progressions – descriptions of increasingly sophisticated ways of thinking about or understanding a topic (National Research Council, 2007) – represent a promising framework for developing organized curricula and meaningful assessments in

science. In addition, well-grounded learning progressions may allow for coherence between cognitive models of how understanding develops in a given domain, classroom instruction, professional development, and classroom and large-scale assessments. Because of the promise that learning progressions hold for bringing organization and structure to often disconnected views of how to teach and assess science, they are rapidly gaining popularity in the science education community. However, there are significant challenges faced by all engaged in this work. In June 2009, science education researchers and practitioners, as well as scientists, psychometricians, and assessment specialists convened to discuss these challenges as part of the Learning Progressions in Science (LeaPS) conference. The LeaPS conference provided a structured forum for considering design decisions entailed in four aspects of work on learning progressions: defining learning progressions; developing assessments to elicit student responses relative to learning progressions; modeling and interpreting student performance with respect to a learning progressions; and using learning progressions to influence standards, curricula, and teacher education. This book presents specific examples of learning progression work and syntheses of ideas from these examples and discussions at the LeaPS conference.

Project Based Teaching Suzie Boss 2018-09-20 It's no secret that in today's complex world, students face unparalleled demands as they prepare for college, careers, and active citizenship. However, those demands won't be met without a fundamental shift from traditional, teacher-centered instruction toward innovative, student-centered teaching and learning. For schools ready to make such a shift, project-based learning (PBL) offers a proven framework to help students be better equipped to tackle future challenges. Project Based Teachers encourage active questioning, curiosity, and peer learning; create learning environments in which every student has a voice; and have a mastery of content but are also comfortable responding to students' questions by saying, "I don't know. Let's find out together." In this book, Suzie Boss and John Larmer build on the framework for Gold Standard PBL originally presented in Setting the Standard for Project Based Learning and explore the seven practices integral to Project Based Teaching: Build the Culture Design and Plan Align to Standards Manage Activities Assess Student Learning Scaffold Student Learning Engage and Coach For each practice, the authors present a wide range of practical strategies and include teachers' reflections about and suggestions from their classroom experiences. This book and a related series of free videos provide a detailed look at what's happening in PBL classrooms from the perspective of the Project Based Teacher. Let's find out together. Brother Wolf Laurelyn Dossett 2010 Blending folklore, myth, music and mountain religion, Brother Wolf is an Appalachian adventure tale based on the story of Beowulf. High in the mountains of North Carolina, a family is threatened by a demon named Grin Dell. When a preacher named Brother Wolf arrives to lend a hand, the death of the demon sets off a cycle of revenge that can only be stopped by learning to forgive. Featuring evocative bluegrass songs, this skillful musical traces the complex art of storytelling and the fear that divides good and evil.

A Human Error Approach to Aviation Accident Analysis Douglas A. Wiegmann 2017-12-22 Human error is implicated in nearly all aviation accidents, yet most investigation and prevention programs are not designed around any theoretical framework of human error. Appropriate for all levels of expertise, the book provides the knowledge and tools required to conduct a human error analysis of accidents, regardless of operational setting (i.e. military, commercial, or general aviation). The book contains a complete description of the Human Factors Analysis and Classification System (HFACS), which incorporates James Reason's model of latent and active failures as a foundation. Widely disseminated among military and civilian organizations, HFACS encompasses all aspects of human error, including the conditions of operators and elements of supervisory and organizational failure. It attracts a very broad readership. Specifically, the book serves as the main textbook for a course in aviation accident investigation taught by one of the authors at the University of Illinois. This book will also be used in courses designed for military safety officers and flight surgeons in the U.S. Navy, Army and the Canadian Defense Force, who currently utilize the HFACS system during aviation accident investigations. Additionally, the book has been incorporated into the popular workshop on accident analysis and prevention provided by the authors at several professional conferences world-wide. The book is also targeted for students attending Embry-Riddle Aeronautical University which has satellite campuses throughout the world and offers a course in human factors accident investigation for many of its majors. In addition, the book will be incorporated into courses offered by Transportation Safety International and the Southern California Safety Institute. Finally, this book serves as an excellent reference guide for many safety professionals and investigators already in the field.

Hebrew Gospel of Matthew George Howard 2005-07 "The present book is a revised edition of The Hebrew Gospel of Matthew according to a Primitive Hebrew Text (1995) in which the Hebrew text of the Gospel of Matthew as it appeared in Even Bohan is printed, accompanied by an English translation and an expanded and thorough revision of Howard's critical analysis. An important thrust of this new edition is to establish that the Hebrew Matthew of the Even Bohan predates the fourteenth century. It shares many readings with ancient Christian writings, some of which were lost in antiquity only to reappear in modern times. These included Codex Sinaiticus, the Old Syriac version, the Coptic Gospel of Thomas, and a host of others. Howard also analyzes the language, artistic touches, and theology of the Hebrew Gospel. Perhaps most significant are the portraits of Jesus Christ and John the Baptist depicted in the document. Both portraits belong to an early form of Jewish Christianity -- lost in antiquity -- in which the Baptist plays a salvific role in the redemption of humanity and Jesus operates as a divine solicitor and judge."--Back cover.

The Strategic Leadership of Admiral Chester W. Nimitz James A. Knortz 2012 This paper examines the strategic leadership of Admiral Chester W. Nimitz in World War II using the framework of the Navy Leadership Competency Model and chapter twelve of the U.S. Army's Field Manual (FM) 6-22, Army Leadership. The Navy Leadership Competency Model offers five core competencies that apply to every level and position of leadership including accomplishing mission, leading people, leading change, working with people and resource stewardship. FM 6-22 mirrors the NLCM and adds in the important quality of dealing with adverse conditions, uncertainty and ambiguity. Admiral Nimitz was able to excel at all of these strategic leadership qualities to accomplish the incredible feat of

leading the U.S. Navy from the devastation of Pearl Harbor to total victory over Japan in the Pacific.

Writing and Motivation Suzanne Hidi 2006-11-01 Bringing together contributions from international research on writing and motivation this volume addresses the implications of writing instruction based on the 2 main approaches to writing research: cognitive and socio-cultural. It provides systematic analysis of the various models, perspectives, and methods of motivation and writing.

Hollywood Highbrow Shyon Baumann 2018-06-05 Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film

festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.

Alice Hoffman Kathleen McMillan Guthrie 2015-09-30 Alice Hoffman: Queen of Bogue Banks is the unbelievable historical account of a too-large-for-life woman who decides to forge her own way in the late nineteenth and early twentieth centuries. Hoffman's adventure centers around a clash of cultures, a legal battle in a small Southern courthouse, and a decades' long contention between two completely different societies: Hoffman's high society of New York and the fishing communities of Bogue Banks, North Carolina.- How did a New York City socialite drastically change a small NC fishing village?- Why did a small Eastern North Carolina county sue President Theodore Roosevelt's grandchildren?- How long does it take to lose freedom and a way of life? And what happens when it is lost?Kathleen Guthrie has uncovered a can't-miss story for the ages and collected it in a well-researched account of a true American original.
