International Responses to Mass
Atrocities in Africa Kurt Mills
2015-10-16 Since the end of World War
II and the founding of the United
Nations, genocide, crimes against
humanity and other war crimes—mass
atrocities—have been explicitly
illegal. When such crimes are
committed, the international
community has an obligation to
respond: the human rights of the
victims outweigh the sovereignty
claims of states that engage in or
allow such human rights violations.
This obligation has come to be known
as the responsibility to protect.
Yet, parallel to this responsibility,

two other related responsibilities
have developed: to prosecute those
responsible for the crimes, and to
provide humanitarian relief to the
victims—what the author calls the
responsibility to palliate. Even
though this rhetoric of protecting
those in need is well used by the
international community, its
application in practice has been
erratic at best. In International
Responses to Mass Atrocities in
Africa, Kurt Mills develops a
typology of responses to mass
atrocities, investigates the
limitations of these responses, and
calls for such responses to be
implemented in a more timely and
thoughtful manner. Mills considers
four cases of international responses
to mass atrocities—in Rwanda, the
Democratic Republic of the Congo,

Uganda, and Darfur—putting the cases into historical context and analyzing them according to the typology, showing how the responses interact. Although all are intended to address human suffering, they are very different types of actions and accomplish different things, over different timescales, on different orders of magnitude, and by very different types of actors. But the critical question is whether they accomplish their objectives in a mutually supportive way—and what the trade-offs in using one or more of these responses may be. By expanding the understanding of international responsibilities, Mills provides critical analysis of the possibilities for the international community to respond to humanitarian crises.

Brass Buttons - Blue Coats George E. Rutledge – Deputy Chief, Ret.

2020-01-16 Brass Buttons, Blue Coats
“Remembering All Who Served 1871 to 1971” By: George E. Rutledge As a young police sergeant in 1976, George E. Rutledge met a veteran who told him, “I served 35 years in our police department and the day I retired was the very last time I ever heard from anyone in the police department. And the same thing will happen to you.” Rutledge has dedicated his life to making sure all who served in the

Yonkers Police Department are remembered and honored. Brass Buttons – Blue Coats is a thorough documentation of all individuals who have served from the beginning of the Yonkers Police Department to 1971. Personal profiles and photographs create a lasting memorial of service. In 1866, still suffering from the turmoil of the Civil War, the town of Yonkers voted to hire fourteen Metropolitan Policemen from New York, creating the first Yonkers police force. From this humble beginning, the Yonkers police force has grown to over 600 dedicated men and women. From foot patrols to squad cars, notebooks to computers, the Yonkers police force has grown and adapted with the times. But the purpose has never wavered: to Serve and Protect. Civil War veterans, Vietnam veterans,

rescue workers after 9/11, and Special Olympic volunteers – the Yonkers force is filled with people who have dedicated their lives to their country and their community. Rich with details of service and crimes over 100 years, Brass Buttons – Blue Coats is both a fitting tribute to brave men and women as well as a fascinating look at the history of Yonkers and the history of crime.

Lone Survivor Marcus Luttrell
2007-06-12 Follow along a Navy SEAL's

firsthand account of American heroism during a secret military operation in Afghanistan in this true story of survival and difficult choices. On a clear night in late June 2005, four U.S. Navy SEALs left their base in northern Afghanistan for the mountainous Pakistani border. Their mission was to capture or kill a notorious al Qaeda leader known to be ensconced in a Taliban stronghold surrounded by a small but heavily armed force. Less than twenty-four hours later, only one of those Navy SEALs remained alive. This is the story of fire team leader Marcus Luttrell, the sole survivor of Operation Redwing, and the desperate battle in the mountains that led, ultimately, to the largest loss of life in Navy SEAL history. But it is also, more than anything, the story

of his teammates, who fought ferociously beside him until he was the last one left--blasted unconscious by a rocket grenade, blown over a cliff, but still armed and still breathing. Over the next four days, badly injured and presumed dead, Luttrell fought off six al Qaeda assassins who were sent to finish him, then crawled for seven miles through the mountains before he was taken in by a Pashtun tribe, who risked everything to protect him from the encircling Taliban killers. A six-foot-five-inch Texan, Leading Petty Officer Luttrell takes us, blow by blow, through the brutal training of America's warrior elite and the relentless rites of passage required by the Navy SEALs. He transports us to a monstrous battle fought in the desolate peaks of Afghanistan, where

the beleaguered American team plummeted headlong a thousand feet down a mountain as they fought back through flying shale and rocks. In this rich, moving chronicle of courage, honor, and patriotism, Marcus Luttrell delivers one of the most powerful narratives ever written about modern warfare -- and a tribute to his teammates, who made the ultimate sacrifice for their country.

Feminist Accountability Ann Russo
2018-12-04 Explores accountability as a framework for building movements to transform systemic oppression and violence What does it take to build

communities to stand up to injustice and create social change? How do we work together to transform, without reproducing, systems of violence and oppression? In an age when feminism has become increasingly mainstream, noted feminist scholar and activist Ann Russo asks feminists to consider the ways that our own behavior might contribute to the interlocking systems of oppression that we aim to dismantle. *Feminist Accountability* offers an intersectional analysis of three main areas of feminism in practice: anti-racist work, community accountability and transformative justice, and US-based work in and about violence in the global south. Russo explores accountability as a set of frameworks and practices for community- and movement-building against oppression and violence.

Rather than evading the ways that we are implicated, complicit, or actively engaged in harm, Russo shows us how we might cultivate accountability so that we can contribute to the feminist work of transforming oppression and violence. Among many others, Russo brings up the example of the most prominent and funded feminist and LGBT antiviolence organizations, which have become mainstream in social service, advocacy, and policy reform projects. This means they often approach violence through a social service and criminal legal lens that understands violence as an individual and interpersonal issue, rather than a social and political one. As a result, they ally with, rather than significantly challenge, the state institutions, policies, and systems

that underlie and contribute to endemic violence. Grounded in theories, analyses, and politics developed by feminists of color and transnational feminists of the global south, with her own thirty plus years of participation in community building, organizing, and activism, Russo provides insider expertise and critical reflection on leveraging frameworks of accountability to upend inequitable divides and the culture that supports them.

Bible Myths and Their Parallels in Other Religions Thomas William Doane
2007-11-01 American author THOMAS WILLIAM DOANE (1852-1885) is considered one of the most significant contributors to the Free Thought movement, which held the view that belief should be based on the epistemology of scientific and

logical laws, rather than on faith. In support of this philosophy, Doane undertook extensive research delving into the parallels between Christianity and preexisting religions from around the world, ultimately meaning to show the difference between eternal truths, both spiritual and scientific, and fable. Here, in a work first published in 1882, he takes a methodical stroll through each of the most popular Biblical myths from both the Old and New Testaments, including the Flood, the Exodus, Samson, the Star of Bethlehem, baptism, and the temptation of Christ. By providing copious evidence of the preexistence of the morals and indeed, associated details of each, as well as thorough bibliographic information, the fruit of Doane's labor is a fascinating

survey of world religions and a compelling critique of the originality of Christian dogma.

Luke: Jesus Christ, Savior for the Nations Practical Christianity
Foundation 2020-08-08 Jesus Christ is

a light that will reveal salvation to the nations... So wrote Luke, the only Gentile writer found in the New Testament Scriptures. Luke saw in Jesus Christ the fulfillment of Isaiah's prophecy: "Arise! Shine! Your light has come, and the glory of the Lord has dawned. Nations will come to your light, and kings to the brightness of your dawn." In clearly described themes, Luke takes his readers on a journey of discovery, finding in Jesus Christ, not only the light for Israel, but for people of all nations of the world. "The book you hold in your hands is no dry seminary text, nor is it a feel-good self-help devotional. There is a wealth of information here, presented in a clear and accessible writing style that makes this commentary a great read for new believers and

seasoned theologians alike. Luke's Gospel is examined not in a vacuum, but in the context of the totality of Scripture where frequent references to supporting verses serve as road signs, assuring the reader that he is on the right road. This commentary informs and delights!"

Culture Jamming Marilyn DeLaure
2017-02-28 A collaboration of political activism and participatory culture seeking to upend consumer capitalism, including interviews with The Yes Men, The Guerrilla Girls, among others. Coined in the 1980s, "culture jamming" refers to an array of tactics deployed by activists to critique, subvert, and otherwise "jam" the workings of consumer culture. Ranging from media hoaxes and advertising parodies to flash mobs and street art, these actions

seek to interrupt the flow of dominant, capitalistic messages that permeate our daily lives. Employed by Occupy Wall Street protesters and the Russian feminist punk band Pussy Riot alike, culture jamming scrambles the signal, injects the unexpected, and spurs audiences to think critically and challenge the status quo. The essays, interviews, and creative work assembled in this unique volume explore the shifting contours of culture jamming by plumbing its history, mapping its transformations, testing its force, and assessing its efficacy. Revealing how culture jamming is at once playful and politically transgressive, this accessible collection explores the degree to which culture jamming has fulfilled its revolutionary aims. Featuring original essays from

prominent media scholars discussing Banksy and Shepard Fairey, foundational texts such as Mark Dery's culture jamming manifesto, and artwork by and interviews with noteworthy culture jammers including the Guerrilla Girls, The Yes Men, and Reverend Billy, Culture Jamming makes a crucial contribution to our understanding of creative resistance and participatory culture.

Emerging Powers in International

Politics Mathilde Chatin 2019-04-30
The rise of large and rapidly growing nations is having a significant impact on the global order, as their expanding influence reshapes the structure of power in the international system. These emerging powers are increasingly asserting themselves as major actors on the global scene. Leading this cadre of

emerging powers are five nations referred to as the BRICS – Brazil, Russia, India, China and South Africa. This book takes inventory of both the individual and collective soft power of this rising bloc of nations. Having embraced the potential of this newly emphasized type of power as a means of generating international influence, these nations have dedicated substantial effort and resources to implementing a soft power offensive. This book was originally published as a special issue of the Journal of Political Power.

The SAS 'Deniables' Tony May
2022-04-30 During the 10,000-day Vietnam war, Australia had agreed with the United States to have a team of Australian Army Special Air Services (SAS) soldiers conduct covert missions into Cambodia. The

SAS soldiers would be bivouacked in Thailand. With their names changed for security and personal safety reasons, this is a dramatized story of events that actually happened involving a small band of Australian Special Air Service trained specialists involved in covert intelligence activities who were co-opted into the Defence Intelligence Organisation (DIO) repertoire of Plausibly Deniable assets deployed worldwide into the shadows of political indulgence in locations where Australian forces should not be seen or heard. These Australian SAS Covert operations undertaken are incidents that have never before been exposed and include cross-sovereign-border infiltrations into Cambodia and the daily operations of the elimination of Viet Cong munition

dumps. Also revealed are an unauthorized fatal attack by United States Army helicopters on SAS warriors; the rescue of French tourists kidnapped by Muslim terrorists in Mindanao, Philippines, and Operation Eye of the Storm into Northern Kuwait/Eastern Iraq evolving into Desert Storm. As revealed these covert operations included offshore intervention of East Timorese Fretilin Terrorists sabotaging Australian offshore Exploration and Oil Drilling activities in the Timor Sea; Back Door into Hell during the Somalia conflict, plus covert black ops elimination of Muslim Jihadist activities on homeland soil assisted by Israeli intelligence. This astounding exposé opens the closed door behind which governments operate to deal quietly with situations they

prefer not to mention.

Gender Ideologies and Military Labor Markets in the U.S. Saskia Stachowitsch 2013-03-01 Gender Ideologies and Military Labor Markets

in the U.S. offers a comprehensive analysis of the relationship between changes in military gender ideologies and structural changes in U.S. military and society. By investigating how social and military change have influenced gender ideologies, the author develops an approach that (re-)connects military gender ideologies to the social conditions of their production and distribution and explains their transformation as effects of changing social and political relations and conflicts. Examining the role of different groups of social actors, media debates on women's military participation and gender ideologies inherent in depictions of military women, the author seeks to contextualise these ideologies are within structural change in the U.S.

military and society, relating them to the gender-specific division of labour on civilian and military labor markets. This work provides a deeper understanding of the nexus between military re-structuring processes,

women's military integration, and changes of gender ideologies in regard to war and the military, and will be of great interest to students and scholars of gender, security studies and American politics.
