Book jacket.

Insurance Commander Baxter Dunbar 1994-01-01 INSURANCE COMMANDER is the first "How To" book on property & casualty business insurance sales. The book helps agents tackle, simplify, & master the complex variables of commercial insurance sales with easy-to-follow, step-by-step instructions in every property & casualty business insurance sales & underwriting activity. INSURANCE COMMANDER is the useful new command post of information & sales solutions agents will refer to again & again. Agents can now find the facts they need to succeed all in one manual: sales techniques that get results, prospecting sources, pre-survey & survey interview checklists & work sheets, dozens of up-to-date proposal formats, special applications to help agents ask the right questions & gather the best underwriting information on the first prospect interview, simple directions to create brilliant underwriter submissions & powerful proposals that ask for the sale six ways! Packed with practical advice & realistic scenarios, INSURANCE COMMANDER teaches agents how to identify the 18 different personality types of insurance buyers & sell them what they want. To order: Business Insurance Publishing, P.O. Box 480022, Kansas City, MO 64145. 800-247-6553. FAX 419-281-6883.

The Indigo Book Christopher Jon Sprigman 2016-05-02 This public domain book is an open and compatible implementation of the Uniform System of Citation. **Guide for All-Hazard Emergency Operations Planning** Kay C. Goss 1998-05 Meant to aid State & local emergency managers in their efforts to develop & maintain a viable all-hazard emergency operations plan. This guide clarifies the preparedness, response, & short-term recovery planning elements that warrant inclusion in emergency operations plans. It offers the best judgment & recommendations on how to deal with the entire planning process -- from forming a planning team to writing the plan. Specific topics of discussion include: preliminary considerations, the planning process, emergency operations plan format, basic plan content, functional annex content, hazard-unique planning, & linking Federal & State operations.

Pain Management and the Opioid Epidemic National Academies of Sciences, Engineering, and Medicine 2017-09-28 Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

Tactical Paramedic Kyle Faudree 2014-05-21 This book was written for both the military and civilian tactical medic in order to prepare them for tactical paramedic certification (TP-C). It also provides the reader with valuable descriptions and demonstrations of crucial medical procedures.

Chemical and Biological Terrorism Committee on R&D Needs for Improving Civilian Medical Response to Chemical and Biological Terrorism Incidents 1999-02-26 The threat of domestic terrorism today looms larger than ever. Bombings at the World Trade Center and Oklahoma City's Federal Building, as well as nerve gas attacks in Japan, have made it tragically obvious that American civilians must be ready for terrorist attacks. What do we need to know to help emergency and medical personnel prepare for these attacks? Chemical and Biological Terrorism identifies the R&D efforts needed to implement recommendations in key areas: pre-incident intelligence, detection and identification of chemical and biological agents, protective clothing and equipment, early recognition that a population has been covertly exposed to a pathogen, mass casualty decontamination and triage, use of vaccines and pharmaceuticals, and the psychological effects of terror. Specific objectives for computer software development are also identified. The book addresses the differences between a biological and chemical attack, the distinct challenges to the military and civilian medical communities, and other broader issues. This book will be of critical interest to anyone involved in civilian preparedness for terrorist attack: planners, administrators, responders, medical professionals, public health and emergency personnel, and technology designers and engineers.
